## Networking Luncheon - Nuts and Flakes

At our Networking Luncheons we have put a snowflake sticker on half the name tags and an acorn or nut sticker on the other half. During the networking activity of the luncheon we announce it is time for:

1. Flakes to talk to Flakes and Nuts to talk to Nuts. Each person takes a turn for 2 minutes to explain their business and what makes their business unique. Everyone stands and finds a Flake or Nut that is not at their table.
2. Then announce the Flakes to find a new Flake to talk to and the Nuts to find a new Nut to talk to. Each person takes a turn for 2 minutes each to explain their business and what makes their business unique.
3. Then announce that Flakes can now find a Nut to talk to with each having 2 minutes to speak.
4. Then announce everyone to find a new Nut or Flake to talk to with each having 2 minutes to speak.

We time these sections and ring a cow bell and then announce the next segment.
